Staff Taking Medication Policy

Staff taking medication/other substances

Staff members must not be under the influence of alcohol or any other substance which may affect their ability to care for children. If a staff member is taking medication which may affect their ability to care for children, the staff member should seek medical advice.

We will ensure that staff members only work directly with children if medical advice confirms that the medication is unlikely to impair that staff member's ability to look after children properly. All medication on the premises must be securely stored, and out of reach of children, at all times.
